**Summary:** On March 12, 2001, Judy Peck, State Regulatory Relations Administrator, Sempra Energy, met with David Gamson, advisor to Cmmr. Brown, and Laura Krannawitter, advisor to Cmmr. Duque, in San Francisco. Peck reviewed the requirements of California Public Utilities Code Section 399.15(b) and pointed out that the code calls for the program costs to be included in distribution rates. Peck noted that San Diego Gas and Electric Company (SDG&E) and Southern California Gas Company are not under the rate freeze and urged the Commission to provide up-front rate recovery. Peck expressed concern that SDG&E's share of the overall program costs is

disproportionately large. Peck suggested that the budget should be reapportioned using the current allocation methodology. Peck also expressed concern about the decision to move the self-generation program administration to the San Diego Energy Office. Peck expressed SDG&E's desire to maintain the administrative role for this program.

03/16/01      R98-07-037      Order Instituting Rulemaking on the Commission's proposed policies and programs governing energy efficiency, low-income assistance, renewable energy and research development and demonstration.

**Summary:** On March 13, 2001, Sabrina Chaw, Senior Regulatory Representative, Pacific Gas and Electric Company (PG&E), met with Laura Krannawitter, advisor to Cmmr. Duque, David Gamson, advisor to Cmmr. Brown, in two separate meetings in San Francisco. Also present were Bob McLennan, Attorney, and Manho Yeung, Manager of Electric Transmission Planning, PG&E. McLennan stated that under the proposed decision, PG&E is ordered to finance \$63 million dollars per year of new costs related to load control and distributed generation without new revenues. McLennan pointed out that if PG&E must pay for these programs, PG&E will not be able to pay other creditors, such as generators. McLennan referred to the provisions of Public Utilities Code Section 399.15 and stated that, under the law, the Commission must allow utilities to recover the reasonable cost of these programs. McLennan explained that the Commission has a few options to meet its 180-day statutory deadline for adoption of these programs. Chaw stated that as of March 9, 2001, over 1,000 MW of Qualifying Facilities (QFs) have shut down and that many of the shutdowns are due to the fact that the QFs have only received partial payments from PG&E.

**Summary:** On March 16, 2001, Sabrina Chaw, Senior Regulatory Representative, Pacific Gas and Electric Company (PG&E), sent via e-mail a letter (attached to the notice) to Laura Krannawitter, advisor to Cmmr. Duque. In the e-mail, Chaw states that the surcharge applicable to load control/distributed generation program would be less than one tenth of a cent.

3/16/01          I00-11-001          Order instituting investigation into implementation of Assembly Bill 970 regarding the identification of electric transmission and distribution constraints, actions to resolve those constraints, and related matters affecting the reliability of electric supply.

**Summary:** On March 13, 2001, Sabrina Chaw, Senior Regulatory Representative, Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown and Laura Krannawitter, advisor to Cmmr. Duque, in two separate meetings in San Francisco. Also present were Bob McLennan, Attorney, and Manho Yeung, Manager, Electric Transmission Planning, PG&E. Referring to the draft decision (DD), Chaw stated that 5 projects are ordered to be implemented by the Summer 2001, despite the conclusions in the Energy Division report that the projects are not needed until Winter 2001. Chaw asked that the DD be changed and made consistent with the Energy Division report. Referring to the Energy Report conclusion that PG&E did not properly plan its transmission system, Chaw stated that PG&E has managed its transmission investments prudently. Chaw emphasized the importance of the Commission's role in expediting its review of certificate of public convenience and necessity and permit to construct in order to help meet the summer reliability needs.

                         A00-10-028          The Utilities Reform Network, for Modification of Resolution E-3527.

**Summary:** On March 14, 2001, Les Guliassi, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Lynne McGhee, advisor to Cmmr. Duque, in San Francisco. Guliassi stated that PG&E took steps to reduce staffing levels only because of the liquidity crisis that it faces. Guliassi stated that the company is being forced to take cost cutting measures because revenues are inadequate to cover the ongoing costs of doing business. Guliassi stated that the proposed decision does not

adequately recognize the gravity of PG&E's financial crisis, and that forcing PG&E to maintain staffing and service levels interferes with management's discretion to run the business. Guliassi noted that the Commission has given the company mixed signals with respect to how it should manage and conserve its cash resources. Guliassi stated that by requiring PG&E to refund any cost savings, the Commission has eliminated the company's incentives to cut costs through gains in efficiency. Guliassi argued that the monthly reporting requirement is unwarranted.
